## First City of Arts

A place where diverse cultures combine – from Native American to Scandinavian, scholar to lumberjack, you'll find that the arts flourish in Bemidji – in galleries, on the streets, at the schools and through a number of top shows.

Bemidji has more visual, performance and literary artists than one can imagine. Whether it's the pristine natural surroundings, the relaxed pace or the educational atmosphere, many artists create their life's work, quietly tucked away in their individual studios.

We invite you to take a self-guided tour of some of the Bemidji area's best-known artisans in their studios featuring demonstrations with work available for sale. Witness the creative process that makes **Bemidji the First City of Arts.**
